

Young Entrepreneurs In Motion project (YEIM) is a European project co-financed by the Erasmus for Young Entrepreneurs Program under the COSME Initiative. Yeim promotes entrepreneurship by offering European entrepreneurs the possibility to acquire the necessary skills to create and/or successfully manage a small or medium-sized business. New Entrepreneurs (NEs) acquire and exchange experiences and business ideas with experienced entrepreneurs, Host Entrepreneurs (HEs), by collaborating in the companies for periods between 1 and 6 months. The stay is partially covered by the European Union.
